

URBAN AFFAIRS CENTER

UAC MISSION

The Urban Affairs Center is an applied research unit of The University of Toledo and a member of the Ohio Urban University Program. Our mission is to enhance the vitality of, and improve the quality of life in, Northwest Ohio's urban region. To accomplish this we will apply the resources of The University of Toledo, network with other Urban Universities, and collaborate with local partners to help identify urban problems and propose solutions. Our efforts will include professional research, technical assistance, education, training, community service, outreach, database development, program development, and the publication and distribution of research findings.
